This full day workshop has been created for staff who work in the infant and toddler programs. We will spend time discussing the importance of infant and toddler curriculum specifically designed to enhance infant and toddler development. Staff will brainstorm ideas as related to the curriculum areas, look at the importance of consistent daily schedules and how bonds between infants/toddlers and caregivers are vital to the child's sense of security and belonging. We will touch on regulations in regards to infant and toddler programs as well as look at outdoor play and exploration to compliment the indoor environment. Participants will leave this workshop with ideas for infant and toddler appropriate activities that can be used to enhance their daily curriculum.

*Geared towards educators who are frontline or managers/leaders who work with infants and toddlers

Here's your chance to find out what the buzz is about! MCCA provides participants with a certificate which tracks your journey through all four parts.

BEST CHOICES: ETHICS PART I

This is the first workshop in the MCCA's ethical journey series. In Part I, you will learn about beliefs, values and ethics and the relationship between them. You will learn to identify your own beliefs, values and ethics and understand how they impact your actions. You will also learn to understand others beliefs, values and ethics.

This workshop is the pre-requisite for the other three parts of the ethical Journey.

BEST CHOICES: ETHICS PART II

In this second session in your ethical journey you will be introduced to the MCCA Code of Ethics and understand its benefits. You will also begin to learn the process of ethical decision making. In this session you will receive your personal copy of the Code and a handy wallet size card with the principles to keep at your fingertips

It takes a big heart to help shape **LITTLE** minds.

Building on the Basics: The Educator's Bootcamp

This 2.5 hour workshop offers educators a look at the “highlights” of work in child care. Information will include a look at the regulations and best practices, tips and tricks for effective transitions, the importance of room arrangement and purposefully organized learning environments. We will take a look at the areas that make up early learning centres, the benefits of consistent programming and the information that directors want educators to know so you can be successful in your work in ECE. Whether you are new to the field, newly trained or just wanting a chance to reconnect with the building blocks, this workshop is a great opportunity to rekindle the basics of ECE.
