

## Central Region Manitoba Child Care Association

### Anaphylaxis/Epipen Training

Jessica McPhee, URIS Nurse. This annual training is necessary for centres that have children with life threatening allergies enrolled as well as children with asthma or seizure disorders. It is valuable information for professionals who have or may have such a child enter into their program.

#### **FOLLOWED BY**

#### **Various Topics based on the night chosen**

#### **Tuesday April 17<sup>th</sup> Child and Family Services**

A representative from the Central Region Child and Family Services Agency will explain their mandate, the process that happens when children are reported with concerns, suspected abuse occurs or the child is apprehended from the parent or guardian.

Information will be provided on the services available to the families in the community.

#### **Thursday, April 19<sup>th</sup> Newcomer Awareness**

Many new families are arriving into the province and require child care. Join this session to be more aware of the services and how we can help make the adjustment for the families easier. Miriam Turyamwijuka is the Settlement Coordinator for Newcomer Settlement Services at the Portage Learning and Literacy Centre. Prior to this, she was the Program Assistant and Stage 1 ESL (English as a Second Language) Instructor. In 2009, she was also an ESL Instructor for all CLB (Canadian Language Benchmark) levels at the PLLC. Her lived experience includes teaching English overseas in Rwanda and China for two years. She has also traveled to many countries throughout the world, including Uganda, Kenya and across Europe..

#### **Wednesday May 2<sup>nd</sup> Central Plains Cancer Care**

Janice Telford, a retired nurse from MacGregor is a long time educator for Central Plains Cancer Services. She enjoys going out into the region to talk to community groups about Cancer Awareness and Prevention.

#### **Tuesday May 8<sup>th</sup> Speech and Language Development**

Speech and Language milestones are important aspects of a child's growth and development and are central to overall health and well-being. Child care providers are often the first individuals to recognize concerns with speech and language. This presentation will serve as an intro to speech and language milestones, what may warrant a referral to SLP, what to expect when a referral is made, as well as strategies and modifications for the child care settings to facilitate speech and language through play. Ashely Debrouwere, is a pediatric speech and language pathologist specializing in treatment of preschool speech and language disorders.
