# Bandit's Kids & Pups Safety Program

## Did you know.....

The highest incident of bites are to kids under nine years of age?

Most of these bites are to children five to seven years old and usually boys?

Most bites to children are from their own dogs in their own homes?

The second highest incident of bites to children are from dogs they are familiar with?

## Did you know.....

Children are usually bitten in the head, neck or face?

Many children experience PTSD one month after a dog bite?

Most dogs try to communicate with people to say they are uncomfortable before biting, however adults are misinter-
