

Bookmates'
“Growing Strong Stems –
Supporting Science, Technology, Engineering and Math
Concepts in the Early Years”

Monday, July 9, 2018
6:00 pm – 9:00 pm
ACC, 520 Whitmore Ave E, Dauphin

This workshop is designed to share practical skills, tips and resources for implementing STEM (science, technology, engineering and math) learning into early childhood settings. Content includes:

- Understanding why inquiry based learning is essential in early childhood development
- Discussing the critical thinking and problem solving skills that are developed when engaged in STEM
- Learning how to engage children in investigatory activities
- Sharing and discussing a wide range of ways we can develop and incorporate STEM into our everyday programs
- Provision of a suggested book list with titles that incorporate STEM themes and encourage discussion of related topics between caregiver and child

Spaces are limited. Supper provided, \$15 charge per participant.

Please contact Natalie Bonin by July 3 at
