

Benefits Guide

Class 8 : Option 1 Without STD
With 6 Month Waiting Period
November 1, 2024

Welcome Your benefits are an important part of your overall compensation. We are pleased to offer a comprehensive array of valuable benefits to protect your health, family and way of life. This guide answers some of the basic questions you may have about your benefits. Please read it carefully, along with any supplemental materials you receive.

Eligibility

You are eligible for benefits if you are a permanent employee actively working 20 or more hours per week. You must have provincial plan coverage (or special temporary replacement coverage) in place to be eligible for the benefit plan. The plan offers either individual or family coverage. If your dependents are not covered under any other plan, they will be automatically covered under your plan at the family rate.

Eligible family members include:

- Your legally married spouse
- Your common-law spouse (a person who has been living with you in a conjugal relationship for at least 12 months)
- Your children who are your biological children, stepchildren, adopted children or children for whom you have legal custody (age restrictions may apply)
- Disabled children who reach the age limit and who meet certain criteria may continue on your health coverage

If you are enrolled in a spouse's plan and decide to waive health and dental benefits, you must still be enrolled in pooled benefits, including life and disability insurance.

Enrolment

Your Plan Administrator will provide you with enrolment instructions once you have satisfied your waiting period.

When Coverage Begins

- **New Hires:** You are eligible to participate in the plan after 6 months of continuous service at your centre. You must complete the enrolment process within 31 days of your eligibility date.
If you fail to enrol on time, you may be subject to medical underwriting (which can result in restricted or declined coverage).

Making Changes

If you experience a qualified life event, please contact your centre's Plan Administrator within 31 days. If you do not, your dependent(s) will be subject to medical underwriting, which may result in restricted coverage under the plan. Following are examples of the most common qualified life events:

- Marriage or divorce
- Reaching co-habitation period for common-law status
- Birth or adoption of a child
- Child reaching the maximum age limit
- Death of a spouse, common-law partner or child
- Spouse losing coverage under external benefits plan

You may be required to show documentation of the event, such as a marriage license, birth certificate or divorce decree.

Health Care

We are proud to provide you health care through Canada Life. This plan covers what your provincial health plan does not. Enrolment in a provincial health plan is a requirement to be eligible for reimbursement of supplemental medical expenses under this plan. The chart below provides an overview of the plan.

Coordination of Benefits

If your spouse also has coverage, submit your own claims through your plan first and have your spouse submit claims through their plan first. You can submit any leftover amounts to each other's plan to maximize your coverage. You must wait for the Explanation of Benefits (EOB) to be produced prior to coordinating your benefits. For any children on the plan, submit their claims through the plan of the parent whose birth date comes first in the calendar year.
