

Investing in Directors Desk

Transparent, Flexible & Fair – because strong HR support should fit your centre.

It was important to us to structure the pricing in a way that aligns with how centres actually operate. We considered things like centre size, government funding per centre, and feasibility. In the end we chose a sliding scale pricing system that is based on the number of spaces your centre has. We then added access permissions levels to help support the different needs of centres across the province.

MCCA Member Pricing:
