

Information on the Classification of Early Childhood Educators and Child Care Assistants

Introduction

The Community Child Care Standards Act and Manitoba Regulation 62/86 outline comprehensive standards governing the licensing of child care centres and family child care homes; the early learning and care of children in licensed facilities; and the training of child care employees. These standards ensure children's health and safety, and recognize the need for qualified early childhood educators to care for young children.

1. Qualifications of Staff of Child Care Centres

The requirement for the classification of child care staff and their qualifications are outlined in *The Community Child Care Standards Act* and Manitoba Regulation 62/86.

Licensed child care centres and nursery schools must employ a specific proportion of trained staff who are classified as either Early Childhood Educator (ECE) IIs or IIIs, as follows:

INFANT AND PRESCHOOL AGE CHILD CARE CENTRES

At least **two thirds** of staff are required to be classified at the ECE II or III level.

Directors must be classified at the ECE III level at the time of licensing.

SCHOOL AGE CHILD CARE CENTRES

At least **one-half** of staff are required to be classified at the ECE II or III level.

Directors must be classified at the ECE II or III level at the time of licensing.

NURSERY SCHOOLS

Operating four or more part days per week:
At least **one-half** of staff are required to be classified as ECE IIs or ECE IIIs.

Directors must be classified at the ECE II or III level at the time of licensing.

Operating three or fewer part days per week:
One staff person for every 30 licensed spaces is required to be an ECE II or III. This person is not required to be the director of the nursery school.

2. Application Process

Who Can Apply?

Anyone presently seeking paid employment or volunteer work in a child care centre may apply for classification.

Depending on your level of recognized early childhood education, you will receive classification as a Child Care Assistant (CCA), ECE II or ECE III.

The process of classification **must** be completed before beginning employment at a licensed child care centre. Family child care providers may apply for classification; although, classification is *not* a requirement for becoming a licensed family child care provider.

There is no charge for this service.

How to Apply

A. Complete the application form

Application forms may be obtained from any **Manitoba Child Care Program** office or may be accessed through our web site: www.manitoba.ca/childcare.
