Understanding the basics of governance from the

*Are you sick and tired of wondering who does what between the Executive Director and the Board of Directors?*

*This training will give you a good understanding of how to establish a good working relationship with the Board of Directors. We will cover the roles and responsibilities of governance vs management; you will learn about the different policies a Board of Directors needs to implement and we will explore the important elements that should be in your monthly report to the Board.*

## ***Rolande's Story***
