

Social

Connection in Play

Meet our Speaker

Kally-Anna is a registered Speech-Language Pathologist and Relationship Development Intervention Consultant for the Relate Program in Neuro-development Services at Rehabilitation Centre for Children.

Kally-Anna is passionate about her role with the relate program. The relate program provides education and consultation to caregivers supporting Autistic children or other neurodevelopmental differences, who are seeking support related to relationships, social communication development and behaviour.

About our Workshop

Participants will learn how to effectively guide social communication during every day interactions with pre-school children who present with Autistic traits. Participants will engage in hands-on practice after learning about new strategies through discussion, demonstration and video review. Content will be geared towards supporting children who are non-speaking or communicate through hand-leading, echolalia, and/or some verbal words.

This workshop will include:

- 1: Brief overview of Autism
- 2: Transition Strategy
- 3: Be-Together Activities
- 4: Applying Variations

Date:

Thursday, October 10th

Time:

Food served 5:30 -6:00
